IES Normandie, Business and Management school, first opened its doors in 2015 and has been in perpetual motion ever since.

With its maxim that the student should be at the centre of the school, IES accompanies every student individually throughout their cursus.

The theoretical fundamentals taught are combined with professional learning, in order to intensify the knowledge shared and the experience gained by the student.

It is also about establishing objectives and giving the student the means to achieve them.

**Great Teachers – from well-known academics to professionals from the business world.**

**Adapted Delivery – small class sizes ; individual attention ; constant reflexion and initiative.**

**Original Content – apart from classic subject areas, different classes are proposed in : body-language theatre ; conflict management ; web development activities ; job conferences ; start-up workshops.**

**Fantastic Location – situated only 1 hour from Paris in the beautiful and historic city of Rouen.**
